

Registrations within your REACH

## What is REACH?

### A CHALLENGE

The EU Chemicals Regulation, REACH, is a very complex and comprehensive piece of legislation that can be daunting for those who are unprepared. However, Rivendell is available to provide all the support you need to comply with REACH.

The Rivendell team has been monitoring the REACH Regulation since its inception and is able to deal with every aspect of it.

Our team of experts has many years of experience in regulatory affairs and is well-equipped to assist you in understanding and fulfilling your role, obligations and responsibilities under REACH.

### THREAT or OPPORTUNITY?

Compliance with the requirements of REACH will allow you to market your products in the EU and what may seem to be a threat can be turned into an opportunity when the safe use of your products is demonstrated.

## What can Rivendell do to help you with REACH?

### We offer a full range of Regulatory Services:

Strategic advice and negotiations  
Pre-Registration  
Data generation  
Dossier preparation  
Consortium representation and management  
Only Representation

### Why choose Rivendell?

We help our clients obtain registrations so that the marketing of substances and products may continue uninterrupted.

Rivendell has a proven track record in taking on projects at short notice and meeting tight deadlines. We work with clients all over the world, in all chemical industries.

It is our objective to work in partnership with our customers to ensure that all business will be mutually beneficial by providing a high quality service at a reasonable price.
